# Jinn Secret Report

#### Greetings,

You are now reading a report that contains information too sensitive for wide distribution and book printing. Your acquisition of this information marks you as one of the few lucky ones who made the choice to be part of this limited circulation release. Some of you have emailed me with dreams and premonitions about this report. You shared with me how you were told that it contains highly critical information that they *really need* to know. I am not surprised at all.

You probably already know that there are two versions of this report. The first version is for those who ordered this report only and the other version is for those who ordered the Qareen report. What may come as a surprise is that there is yet a THIRD report. This third report will not be listed online at all. You would have to have ordered this report to even know it exists. You will need to contact me in private and give me a written promise you will not share this information without permission, that you will not abuse the knowledge it contains to cause harm or practice the dark arts as well as release me from any responsibility should you violate your oath. Why the secrecy and the vow?

It contains *many potent secrets*, but critically it contains the general guidelines for a ritual known to grant you in the physical *any wish* you might have. If you are successful even the most incredible of wishes will be within your reach. It is the true inspiration behind the Jinn in the Lamp of Aladdin. There is a catch. This is no run of the mill jinn ritual. It was attempted successfully only once over 1,500 years ago. The last sorcerer to try his hand on this was around 500 years ago and his failure resulted in death. I hope you understand now why I ask all that I ask ahead of time.

In the Qareen report is information and an *offer* that will be deemed essential for those who possess the third report. The bonus secret in *this* report will provide an important technique for those who want to put the third report secrets to practice. Like a puzzle, if you possess the Qareen report, you got 1<sup>st</sup> key, and if you got the 1<sup>st</sup> key you can now take advantage of the 2<sup>nd</sup> key, and then there is the 3<sup>rd</sup> key and put together you have a powerful secret that handful of magicians in the last 500 years came anywhere close to possessing.

I was hesitant to even include this ritual and was debating cancelling the third report all together. I stayed the course because I know of one person who recently dreamt of this secret thanks to his Qareen. I am sure as he reads this report he will be amazed to realize that his dream was of a true and genuine method that exists. Not every day does one have precognition dream of a powerful secret. Are you too destined for such power? Only time will tell...

Without further ado...

Secret One: The Jinn King of the Sun

The well-known title of the jinn king associated with the Sun is al-Madhab (المذهب). He is one of the grandest of the jinn kings. Here comes the secret – his full name! His full name is:

'bed Allah Ben Ba' Ben 'afes Ben Marzban Ben Shahen al-Madhab

His nickname is

ابا سعيد المذهب

Aba Sa'īd al-Madhab

He is one of the jinn present during King Solomon's time. He is one of the Eastern kings. He is under the domain of Master Jalyut. He has over 360 different tribal families under his control. He possesses the secret of transmutation into gold and all the other workings under the sphere of the Sun.

This is a powerful and mighty family known for their wisdom, knowledge, and mastery of the occult craft. One of the most famous of his children and his heir is the prince:

سعيد ابن المذهب

Sa'īd Ibn al-Madhab

He has also a famous daughter whose moniker is the ruby of luck and joy. Her name is:

## عائلة بنت المذهب

# 'a'elah Bent al-Madhab

He has seven palaces associated with the movement of the Sun that he travels between while administrating his dominion. He has six ministers under his leadership. Their greatest is known as:

## فرعهيد السياف

# Far'ahīd al-Sayaaf

His corresponding Element is Fire. His metal is gold. His incense is Sandarac. He is associated with the first glyph of the Great Name.

His seal: Draw a six pointed star. On each triangle of the star write part of his name without the inclusion of "Ben". You should end with his title. Then write his full nickname in the center. Write the following numeric sequence (right-to-left) three hundred and sixty times around the six pointed star:

# 551352512724529875212525331427

This concludes the first secret. Use it wisely.

| Arabic Letter   | Arabic Phonetic | Pronunciation  |
|---|-----------------|--|
| ح ح ح   | Η̈́             | This is one of the hardest sounds to produce for Westerners, because it is a very soft H that comes from the throat while "inhaling" versus exhaling. Think of the first part of a deep sigh before you exhale out.  |
| و و و و   | Ūū              | This is a long "oo" sound like look.   |
| <u></u> | Ţţ              | This is a hard T sound from the throat. Your tongue should touch the roof of your mouth for 2-3 seconds longer than the soft T. If it is sounding like T in cat then you are not doing it right. It should be a more guttural form of T in Thomas.   |
| ي يـ يـ   | Īī              | It is the ee sound.  |
| ع ع ع ع   |                 | This is the second hardest sound to produce. It is a short-breathless growling like a sound. Start with the English "Eh". Notice how you are saying it from the mouth. Now try and say it from as far deep in your throat as you can. Notice how it begins to change a bit. Now drop the "h", i.e. cut it short and you have very close approximation. |
| ص صد ص  | Şş              | This is a guttural "S" sound from the throat almost like a throat snake hiss.  |
| ش - ش<br>شـ شـ  | Sh              | This is Sh sound as in shhhhh  |

| ث ت ت     | Th  | It sounds just like "the" in English but with an "a" sound as "Tha"  |
|-----------|-----|--|
| خ خ خ     | Kh  | Ch as in Lochness  |
| 7 7 7 7   | D̄₫ | This sounds just like the word "the" in English.   |
| ض ضد ض    | Dф  | This is a deep guttural "d" sound from as far in your throat as you can and as low pitch as you can manage.  |
| ظ ظ ظ ظ   | Żż  | This is a very fast soft "et" sound followed by a a hard guttural "Za" where you bite your tongue.   |
| غ غـ خـ خ | Ġġ  | Think of a baby hard "g" gurgling like sound. It is the G in Baghdad but it isn't pronounced Bag-dad. It is more of a hybrid between the G and Ch. The closest equivalent sound known to most English speakers is the Parisian French "r". |

# Secret Two: The Names of Aseph Ben Berechiah

These names belong to the famed magician-vizir of King Solomon. They consist of fifteen names, fourteen plus the grand name. Each of the fourteen names consists of seven letters, while the grand name itself consists of fourteen letters. They have multiple esoteric benefits, which I will give you samples of in this report.

The listed examples above are taken directly from the original manuscript. They are by no means extensive. The same talisman that can stop a boat from sailing can stop anything from functioning. The same talisman that can cure an illness can also help with any malady or obstacle. These were samples only, so be creative and experiment with the names.

#### Secret Three: Jinn and Black Magic

The top two money makers for paid sorcerers are love spells and black magic removals. Naturally, the majority of these sorcerers tend to diagnose black magic, evil eye, and demonic attack or possession as a matter of course. The cost of removal can add up to thousands. The majority of Western occultists tend to dismiss the whole thing as psychological or psychic weakness or malady of the applicant. Solutions often can come across as condescendingly simple like: "be happy and the demon will disappear" or "think positive and no magic can influence you". One side invent a problem where there is none to milk their victim of their cash and the other side provide them solutions they would give to children afraid of the monster in the closet.

Are there genuine cases of black magic attacks? The answer is yes. I should know as I've seen people actually engage in black magic attacks against unsuspecting individuals. It happens a lot more than people are willing to admit to it. Are there genuine cases of evil jinn or demonic attack or possession? The answer is again yes. Are there cases of disturbed or paranoid people thinking they are under either forms of attack? The answer is again plenty. It doesn't of course help that there is a fair share of people who automatically assume spiritual malice after a sequence of bad luck or sudden appearance of natural disease.

The practitioner of the art has to be able to discern whether the person approaching them is genuinely afflicted or they are in need of a different form of treatment be it psychological or medical. This is the hardest part and is often ignored. The reality of the matter is that unless you can *diagnose and verify* a spiritual cause you should ethically never tell a person they are under influence of any kind of spiritual affliction.

I am going to show you here a powerful method for verifying if someone is afflicted. It involves calling on the Jinn to show the inquirer in a vision the cause of the affliction. You can't do this everything by yourself on behalf of someone and you can't hire a stand-in. The patient has to go through this process with you. Your role is two-fold. First, you would have to perform the ritual and assist the inquirer. Second, you would have to discern the sincerity of the inquirer and interpret the results.

1<sup>st</sup> Requirement: The magician and the inquirer both have to be physically clean and undergone spiritual purification of some sort.

2<sup>nd</sup> Requirement: The place has to be clean and spiritually purified. The place should be free of electronic equipment, pets, and secluded from external distractions such as heavy house-hold traffic or loud noises.

3<sup>rd</sup>Requirement: You should face East or Mecca (if you are Muslim).

4<sup>th</sup> Requirement: No one is allowed in the space during the working except for the magician and the inquirer. No one can replace the inquirer.

5<sup>th</sup> Requirement: Proper protection work is in place and basics rituals are done (resident release, etc.)

On the right hand of the inquirer draw a large pentagram. Make sure the pentagram covers the bulk of their palm. The same goes for the left hand.

Inside the triangles (arms) of the right pentagram insert the following letters clockwise:

Inside the triangles (arms) of the left pentagram insert the following letters clockwise:

Inside the right pentagram write the following in small script to allow it all to fit: "Reveal yourself O magic or jinn afflicting [write full name of the person]."

Inside the left pentagram write the following in small script to allow it all to fit: "Reveal the magic or the jinn afflicting [write full name of the person]." Appear O Jan by the honor of Surat al-Jinn and reveal everything in the body of [write full name of the person]."

The inquirer should now lie on the ground with their hands facing their eyes. Place your hands on their sides. Recite Surat al-Jinn seven times then declare multiples of seven: "By honor of Master Metatron, by authority of Abba Jan, and the great four elders, O servants of Surat al-Jinn, O 'ali al-Sa'daweeah reveal and make apparent any sorcery, jinn, or evil eye afflicting the body of [state full name of the patient] by honor of the Holy of Holies and the sacred names contained in this Surah."

While the inquirer is staring at their hands recite repeatedly Surat al-Jinn verses (1,2, 19, 26 and 27) followed again by the petition: "By honor of Master Metatron, by authority of Abba Jan, and the great four elders, O servants of Surat al-Jinn, O 'ali al-Sa'daweeah reveal and make apparent any sorcery, jinn, or evil eye afflicting the body of [state full name of the patient] by honor of the Holy of Holies and the sacred names contained in this Surah."

Continue the recitation until the patient begins to see things on his or her hands. Explain to the patient that they should perceive things on their hands like a TV movie with sound and pictures and allow it to flow freely. Putting them in a relaxed and semi-hypnotic state might help them.

The first sign of answer would be the appearance of a grey sphere inside the pentagram. If the patient isn't afflicted then the image will be murky and unclear and continuing to shift. If it turns all bright white and stays that way that means there was sorcery and it was in the food or drink. Petition the servants of the Surah to reveal whatever has happened in full details. If it is a spell then the patient should see the entire spell being performed clearly. The event should be as clear as if the patient was there.

If the patient instead perceives a dark figure or white bearded figure then the affliction is from the jinn directly or from the evil eye. Take it one step further and state:

"By honor of Master Metatron, by authority of Abba Jan, and the great four elders, O servants of Surat al-Jinn, O 'ali al-Sa'daweeah bring here the Qareen of [state full name of the patient] to reveal and make apparent the full nature of the jinn or evil eye afflicting the body of [state full name of the patient] by honor of the Holy of Holies and the sacred names contained in this Surah."

You should be able to get the full name of the Jinn and what led to the attack or if it is the evil eye you will get to know who and when it happened.

Should it be necessary you can integrate the Berhatiah conjuration by reciting it seven times to encourage manifestation and clarity of vision.

#### Secret Four: Iblis and His Family

As I reveal this secret, I pray that no one thinks I advocate working with evil jinn as I absolutely do *NOT*. However, knowledge of the evil Jinn is as valuable as knowledge of the good jinn. It is well known that the name of Satan in the Quran is Iblis. The knowledge of most end there. I am going to reveal to you more about Iblis and some of his prominent descendants and their cohorts.

You probably are familiar with the name Marah (مرة), who is considered to be the Jinn King of the Moon. Few know that Marah is also a name for a female Jinn. She is the daughter of her father al-Abyadh (the white one) (الأبيض). Her grandfather is none other than Iblis al-Kabeer (the Great Iblis). She is the eldest and most powerful of his other daughters. There are many daughters and sons and it is beyond the scope of this paper. We will cover only a small number of them.

From among the daughters there are as his daughters Ghanjomīh (غنجوميه), Zaytonah (غنجوميه), Laqīs (عاينه), Murjanah (مرجانه) and 'ayenah (عاينه). Ghanjomīh is said to be exceptionally attractive and has very high sexual appetite for both genders. 'ayenah is said to be dangerous and can feminize men with ease.

Iblis has many children. The most famous of them are of course the seven jinn kings. There are other prominent sons such as Halal (فلاك). Sons with minor influence include the following:

Hafaf (هفاف): Specializes in inflicting harm and terror among the people.

Zalenbor (زلنبور): Encourages deception in all forms of business trade.

Wellha (ولها): Causes negative thoughts during prayers.

Theber (نُبر): All kinds of maladies and afflictions

A'war (اعور): Sexual desire and fornication

Dasem (داسم): Conflict in households

Maṭrash (مطر ش): Spreading false news

Dahhar (دهار): Nightmares

Tamrīḥ (تمریح): Distraction from spiritual practices

Maqlaş (مقلاص): Encourages gambling then sows conflict between them

Aqbaḍ (اقبض): Plants vortexes in the East, West, and center of the Earth that spawns Jinn that have animosity toward mankind.

الساروخ) and his eldest son is Saroch (دنهش) and his eldest son is Saroch (ساروخ).

Up the chain we find Iblis' uncle Shalol (شلول) and his son al-Maṭran Shalolia ( المطران ).

Who is Iblis' mother? It is said his mother is called Um Alkor (ام الكور). The other important female jinn is his lover Hanīsh (هنيش).

Finally, we have the gatekeeper of his palace Sinjab (سنجاب).

The list is by no means exhaustive, but you know now more about his family than most occultists out there, including openly declared Satanists.

#### Secret Five: Jinn Encounter of the Fourth Kind

There are many jinn evocations available to those who seek them out. Some are sold online for hundreds or thousands. Due to the popularity of this topic, I have noticed an abundance of such content online that isn't based on tradition or lore and appears to be nothing more than fake or corrupted conjurations peddled for high money. It is due to this that I decided to include this secret. The one I am going to show you isn't well known and has been passed on by select magicians and was first given by a Jinn. Due to its effectiveness those who have tried it have made it their primary jinn evocation. By no means of course does it compare with evocations like Berhatiah. However, someone who is looking to meet a jinn and is welling to spend hundreds to buy a jinn ring or a jinn conjuration online will be better served keeping their money and giving this method a try.

All the rules of the art and having a place of practice do still apply as a requirement. I am assuming you know how to get started, set up a place, do resident release, etc. The procedure is as follows:

- 1. Five days of practice and two days of retreat
- 2. The work is done in the evening after one o'clock at night
- 3. Follow the number of recitations
- 4. Don't reveal anything you experience except to your teacher
- 5. Don't fret or be terrified by any visions you see
- 6. Keep a distance between you and the wall facing you
- 7. Do the release after the work for the visitors as well once the work is finished. You release them by reciting the names backward.

Once you are successful, two jinn will come and sit before you. Ask for their aid and obedience in your worldly affairs. They will set terms for you to abide by and reveal their names to you. Accept them if you agree with them. After the covenant, they will appear and aid you after you recite the names five times.

The number of recitation of the names is 2,300 and the charge should be given after every one hundred count.

The five names that constitute the evocation are:

Shemlak' (شملكع)

(کعشمل) Ka'shamel

Malk'esh (ملكعش)

A'eshmalek (عشملك)

Lak'ashem (لكعشم)

Say after every one hundred recitations: "Answer me O two jinn who serve these names and come and appear to me and enter a covenant of friendship with me and assist me in all things to this world. By the holy and mighty names sacred to all human and jinn king, I call you forth to penetrate the veil between us and to appear here before me and answer my call."

The post release involves reciting the names backward thus:

Mash'kel (مشعكل)

The incense for this conjuration is Frankincense and dried palm tree leaves.

#### Secret Six: Science of Letters and Jinn Summoning

I am going to reveal to you here one of my personal secrets when working with the Jinn. Many of the conjurations involve sacred names that are forms of Hebrew or Syriac or have been revealed by the Jinn themselves. These are either names of specific Jinni or have particular meaning in their own language. These names are effective and powerful. I call on the facet of the Divine that rules the Jinn specifically to add a powerful boost in my working. This is a standard esoteric principle of harmonic correspondence. For example if I wanted healing I would call on the Divine Healer. If I wanted mercy, I would call on the Divine facet All Merciful. Yet, few magicians ever call on the Divine facet that rules the Jinn!

This facet is connected with by simply calling on "God of the father of the Jinn". The father here refers to progenitor of the entire race. Saying: "O God of the father of the Jinn" in Arabic would be "Ya Ilah Abu al-Jan" where Ya stands for "O". We now use the Science of the Letter to expand this principle into a working and powerful method.

One of the methods used in Science of the Letters involves switching the letters around based on a sequence. One of form of this involves switching a letter with the letter next to it in the Alphabet, like a descending ladder of manifestation. In Jewish mysticism the process of switching one letter with another in the alphabet is known as Temurah. Using this method we form twenty-eight more names. If you are still confused on how these names are extract, let me give you an example in English:

ABC becomes
BCD becomes
CDE becomes

EFG and so on

**DEF** becomes

There is a precedent for using this system in formulation of Divine Names. In Jewish mysticism, the sacred name YHVH is transformed into another sacred name KWZW (Kuzu), which is then used in magical incantations.

Let me show you how to use these names now that you understand how they were formed. You begin by spelling out the name of the Jinn involved. For example, let us say you want to call on Maymun. The Arabic letters forming his name are:

You take out any repeated letters and you end up with:

Now you recite the Divine name associated with each letter in harmony with its numerological count:

Ya Machef Manaş Machsemd (x2440)

Ya Yashen Yakes Yashlith (x1300)

Ya Wafi Wazk Wafhoq (x329)

Ya Nadeş Nasq Nad'enz (x2820)

Then you use the names again to call the Jinn in harmony with the numerological count of its name.

Answer me O Maymun by honor of Machef Manaş Machsemd (x40)

Answer me O Maymun by honor of Yashen Yakes Yashlith (x10)

Answer me O Maymun by honor of Wafī Wazk Wafḥoq (x6)

Answer me O Maymun by honor of Nades Nasq Nad'enz (x50)

Those with eyes to see and ears to hear and wisdom to appreciate will benefit greatly from this method and will already be cognizant of its application and benefits.

## Secret Seven: Magic Hat and Resident Release Talisman

I am going to reveal to you two magical designs. The first is placed over the head inside the hood of the robe during evocations or fashioned into a hat. The other is placed as a wall hanging over the incense burner to keep the residents at bay. It is a good tool to use when the beginner is not very certain of their ability to command the residents away. The inscription of these two designs should be done using the customary ink of the art and handled according to its principles.

To consecrate the wall hanging amulet hold it over the incense and recite Surat al-Fateha seventy-three times, al-Mu'awwidhatayn (verses of refuge) eleven times, Surat al-Safat and then the Berhatiah 49 times. Do so with the intent of charging this amulet to keep the residents out of the room in which it is placed.

## Secret Eight (Bonus): Magic Ink

You will often read that you have to write sacred names, incantations, or talismans. Most people just pick up a pen and go with the flow. In this secret, I am going to reveal to you how to create the proper ink needed for these operations. This is a recipe that involves magic, which is fitting since you will be using the ink to perform magic.

#### Things you will need:

- Ink bottle
- Green cap
- Wax (liquid and ready for pouring)
- Rose Water (available in many Middle Eastern stores and online)
- Saffron (high quality)
- Blood of the Two Brothers known also as Dragon's Blood (Note: reference to the two brothers is to the legend of the first murder or the story of Cain and Abel. This tree has been considered by many ancient civilizations, including the Assyrians)
- Incense mixture (Sandalwood, Blue Mukul, True Myrtle leaves, and Moroccan Gum)
- Burial place

#### Instructions:

- Start the process of creating the ink after Sunset on Thursday after your personal purifications.
- Tale 250 grams of rose water and recite over it eleven times the following names: Sīhab (سیمانوب) Sīmanūb (سیمانوب) Ṣabasīm (سیمانوب) Ṭalūb (طیهانوب) Semcharūb (طیهانوب)
- Recite the first verse of Surat Nun seven times and Surat al- Aleg eleven times
- Blow into the liquid three times visualize white light leave your mouth and mix with the water.
- Pour the rose water into a pot and heat till it reaches boiling point
- Melt wax in another pot

- Take 3 grams of Saffron and 1 ½ gram of Dragon's Blood and place them into the bottle
- Take the boiling water and pour it into the bottle
- Quickly seal the bottle with the green cap
- Pour melted wax right away on the cap to make sure the seal is air tight
- Bury the bottle in moist soil at least 3 inches deep. Make sure it is covered very well so no sunlight can hit it and that it isn't disturbed
- Leave it for 3 days and nights
- Pull it out of the ground after this period is over before the Sun rises
- Cover it in white cloth and put it in a dark place away from the rays of the Sun
- When using it for writing also make sure that it is in a room devoid of Sun light and lit only with candles
- Each time you open the cap to use the ink, recite the names again and breathe into it before usage.

## Celestial Jinn of the Zodiacal Degrees

You are looking right now at a huge chunk of a potent system of stellar magic. When I first started working on this report my goal was to give you only the list of the names of the Jinn connected to the degrees of the Zodiac with basic numerical magic squares. However, the system and the material are so important that I opted to lift the veil on more than the basics.

Some of you may be wondering what you can do with what I am sharing. I'll tell you what I wouldn't do. I wouldn't look at this file as another information purchase to be quickly looked at then thrown over a towering stack of books, manuscripts, or reports acquired but never used. Ask yourself honestly, do you buy pots and pans just to store them into a room brimming with pots and pans to be admired? The question seems ludicrous for after all daily living is made harder without these tools. Please, make the same mental shift concerning this part of the report. I am genuinely offering you something that can make your daily living easier and unlike pots and pans it literally is a once in a life-time acquisition.

Let's look at some possible scenarios in which this system comes handy:

- a) Your friend is in the hospital and in need of healing for heart condition. Sun sounds good, but what would be better would be the Sun in its most exalted degree or a degree in which it is conjunct a powerful healing star.
- b) You are struggling with your career. An astrologer points out to you that your 6<sup>th</sup> and 10<sup>th</sup> houses have afflictions. The astrologer shakes her head and hyper optimistically searches for a distant date in which good transits will help you out of your morass.
- c) You always struggle with communication and being understood. Someone recommended you do a Mercury talisman. You think a Mercury talisman connected to the same degree as your natal Mercury would do the trick.
- d) You find yourself and your significant other arguing over pity things. Sometimes you wonder how you two survived this long. Someone points out that your individual natal Mars are square to each other, which mean your relationship will be mired in regular fights. Only, if you can fix that...
- e) You have a court meeting tomorrow. You wish Jupiter will help you make sure the judgment goes your way. You hear Jupiter is currently in Libra. Now what?
- f) Someone tells you that you are lucky because your natal Venus, the planet of love and attraction, just happens to be in Leo in the same degree as the star Regulus. Your friends invite you to Vegas and you consider going and you mull this tidbit of information and wonder if it really means anything practical.
- g) You heard some bad news. Your boss is thinking of firing you. You have a review planned to try and save your job. Mercury and Venus are your friends. You have the natal info for both you and

your boss. You eye the book: "How to win friends and influence people" nervously and wonder if this is enough.

I can't think of a single situation that can't be improved or helped with planetary magic. Most planetary magic relies on working with the power and spiritual forces of the planets. This requires practice and full on dedication. I can tell you that it is MORE than worth it, but let's be honest few people are willing to invest the required energy and time to get it done right. I stopped counting the times I've heard of magicians flipping their Golden Dawn book to the Jupiter Talisman ritual in times of financial difficulties. That is good – right? Let us leave aside the technical reality of the ritual. What remains a constant is that almost none of these people spent any time working with the planet Jupiter before performing the ceremony and creating the talisman. That is not good.

This system likewise benefits tremendously from any practical experiences you might have with planetary magic. However, it functions differently in that it works with a class of celestial jinn. To use martial terms, you would benefit from going to the gym and learning self-defense classes, but this system is more like hiring your own Chuck Norris for a mission.

It goes without saying that knowledge of Astrology really comes in handy here. It will open the door for you as far as the possibilities and help you figure out which exact force to use. If your knowledge of astrology is limited then I advise you to brush up on the seven planets and which areas they govern. For example, the Moon governs many areas of life, one of which is childbirth and pregnancy. This information is available readily with basic research online or in the Library. The next information you could benefit from are natal charts. If you have the birth information, you can find this information out by using any of the services available online (some are free). You don't need complex analysis of a chart. You just need a table of the planets and their degrees.

It will become easy to figure out which force to summon to your particular situation once all this information is available at your fingertip. The next body of knowledge that you will need are magic based.

I am not going to go over the basics here. If you have the *Ring of Solomon* then you can shave off a few steps and get much quicker results. Most people don't have this ring. If you don't then you will have to follow normal procedure. You will need a dedicated working space. You will need to be familiar with basic protection and shielding tools and methods. Much of this has been covered in my other books, particularly Magic That Works.

Once your space is set up, you will need an effective conjuration. You can use the Berhatiah (Ancient Conjuration of Power) with or without a specific and individualized conjuration for each of these Jinn.

You will need to purify and consecrate your working space, erect shielding, do prayers to the Divine, possess a functioning talisman for the Jinn, chant the name repeatedly, perform the Ancient Conjuration

of Power, and then wrap it up by giving the Jinn your request until you have received a sign that it heard you.

In this report, I have given you the names in Arabic, their phonetic pronunciations in English, and the designs of their talismanic square. These squares are unique to this particular class of Celestial Jinn, so don't be surprised if they look different from the more traditional squares.

This is by no mean comprehensive. You could really benefit from knowing their Idhmar, their corresponding angels, mantras of power, additional servitors, sigils, and so forth. Luckily, you will not need all this information to get results right away. What you have is enough to get you started and it will help you focus. I often find that giving too much at once to my students just overwhelms them.

So, how do you get started? Here is a good daily Exercise:

Erect a chart for your current date, time, and location. Locate the degrees for each of the seven primary planets. Chant the Tahateel name for each of these planets starting with Saturn twenty-one times. These can be found in Magic That Works. Follow it with chanting the name of the Jinn of the corresponding degree fifty-four times while holding the talismanic square in front of your mouth. Ask the Jinn to be your friend and assist you and aid you freely in a positive way within the spheres of influence of that planet.

Here is an example scenario. You did a chart and saw that Mercury is in the 1<sup>st</sup> degree of Aries. Your request may go something like this: "O Khanej Tasedejan, I ask for blessings upon you in the name of the Holy of Holies. May we be friends this day and night. I burn this incense as offerings of friendship. Assist me in all areas of communication, business, travel, and intellectual pursuits that I may engage in this day and night. Let this assistance be in ways beneficial to my material and spiritual life and may you be greatly rewarded by the Beneficent and Holy One for your generosity and friendship."

I recommend that you carry the squares on you covered in white silk and kept safe from Sun light and preying eyes. This way the energy is working for you throughout the day. Should you need more specific help, you can find a secluded place when you are out and about. You can then pull the square out and make a request then. It is a spur of the moment type situation, but if you have already been connecting with these forces then you may very well get the boost you need.

I would advice you to do all seven planets each day for at least 40 days and then look at the results. Note your experiences or any dreams you may have had. The more you do this in a general way the more you are able to call on these forces in specific emergencies quickly and get maximum benefits. This will work much better for you than just waiting till you are in trouble and then trying to figure out how to use these forces to pull you free.

# Jinn Physician

Wealth and love tend to be the two main areas of focus for the average person interested in Jinn magic. The close third tend to be revenage. You can find toward the bottom of the list things like knowledge. It is no surprise then that the majority of ancient books on the subject provide a lot of conjurations for the jinn for these top three needs. The Jinn are like people, so just because people hound them for these three doesn't mean that is all they can do. This is why often you will a conjuration for a specific jinn for love in one book and another for revenage. Jinn are not monolithic function programs. They are individuals. It is the seeker that is determining the goal of the conjuration.

One of the areas rarely mentioned is the domain of health and healing. Believe it or not, there are Jinn doctors and they possess tremendous knowledge of healing. Keep in mind that these Jinn are Jinn physicians, so there knowledge, focus, and expertise lies with non-human beings. However, historically, it seems some Jinn have brought an overlap to the human sphere and presented their services to humans.

There is more than one Jinn physicians who can help humans with healing. The challenge here isn't gaining audience and service of the Jinn, though that is a challenge in of itself, but in the patient accepting the advice given. We humans, especially in our modern society, have put our doctors in a sphere far removed from the realm of the metaphysical. This means that the average magician, let alone a none magician, is happy to express their conviction or opinions in the area of occultism and supernatural until they fall sick. Upon which their first impteus is to run to their local physician and scoff on any idea that they will submit to a spirit for guidance in healing them. This is the way it is until their mortal human doctors tell them – "Sorry ran out of ideas. You will die." It is at his stage that the patient seeking miracle find themselves suddenly open to any possibility or treatment regardless of logic or sensibility or evidence.

A Jinn physician can play a preventive role and not just an instructive role. They can sometime tell you before you fall sick what you may very well contract down the road. They can also provide quick assessment of your internal organ. There are illnesses that they can fix and remove on their own not unlike surgery without the blood and other illnessnes in which they will recommend medical connoctions. The challenge here is in making contact with the Jinn in a real and tangible way to get guidance that isn't a mere reflection of the human ego. The other is to believe enough to follow the sagely advice. Afterall, these beings have no patience with patients who take their services lightly.

In this report, I will give you the name of a famous Jinn physician and a basic conjuration for him. Brush up on the art of Jinn evocation, if it isn't an area of strong suit, and try and establish a working relationship with this Jinn. Do so before you get sick with something that requires a miracle. You may not be able to make a difference in your life, but in the life of your family.

Our famed jinn is Yonas and he has been known to help in cases of gynecological problem, pregnancy problems, skin diseases, and treatment of various kinds of cancer. He is also a famed herbologists. Some myths proclaim him of mixed human and jinn parentage. The complete name of this Jinn, which you will need for calling on him, is as follows:

#### Yonas son of Haresh son of Aresh son of al-Najem al-Thageb

The words al-Najem al-Thageb translates to piercing star in Arabic.

You need to observe a Vegan diet during the conjuration and spiritual practice. Fast during the day. Start your work and prayers during the sunrise of the first Sunday of the new lunar month. During the workings you should also maintain a high level of physical cleanliness and purity. Keep your purifications and consecrations going throughout the whole operation.

The operation requires you remain in a dedicated space for most of the practice. The space needs to be clean and free of anything other than your ritual implements. The only exception is a mattress to sleep a few hours on.

On the first day of the operation proceed with release of the resident and erection of shielding. You need to recite the resident release and the conjuration seven times with the various movements of the Sun (i.e. follow the Islamic prayer times). Your sleep period is only after your working at the morning till you are ready to get up for your afternoon practice. Make sure you don't sleep at night. This is the time where your practice and meditation should be at its highest peak.

The operation concludes Tuesday after sunset. It does require you to dedicate a few days and nights to just this, but it is possible for most people to do. It doesn't require a forty-day retreat or anything extensive.

At midnight, you can begin the operation to full meet the Jinn physicial. The original instructions list the following item used in the end of the ceremony. I am sharing with you the original instructions though I personally would do it differently.

The original instructions require a clean and unused dish made from brass and tin. This dish is filled with water ¾ of the ways. It is placed in front of you. Over the dish is a tripod made of three pomegranate sticks wrapped together with red cord. Note that red cord indicate underworld workings, while green cord indicate upper jinn working. Obviously, the original instruction relied on a more underworld approach.

From the tripod is hanging a red string down toward the dish and from the cord hanging upside down (head down and feet up) is an effigy of a humanoid figure. It is made from unlined red paper or cloth.

On the head of the effigy write:

Mahraqush Mahraqush

On the chest of the effigy write:

Ţaqtaqush Ţaqtaqush

On the right hand of the effigy write:

Taresh Taresh

On the left hand of the effigy write:

Qaresh Qaresh

On the stomach of the effigy write:

Haresh Haresh

On the right leg of the effigy write:

'jalush 'jalush

On the left leg of the effigy write:

# کردوش کردوش

#### Kardush Kardush

The writing should be in spiritual ink.

Proceed with the last phase of the ritual once the effigy is hung upside from the top of the tripod over the dish. Recite your prayers and if you are a Muslim perform a Salat with two ruka' followed with blessings on the prophet Mohammed one hundred times. Then release the resident and start the incense again. Recite the conjuration twenty-one times and focus on the dish.

Once you have an appearance of the Jinn greet him with peace and ask him to sit with you. Ask him again about his name and his family both to confirm and out of friendliness. Ask him about his function and what is his role and once he mentions his medical practice ask if the two of you can enter a covenant of aid and assistance. He will give you his condition and before you agree make sure you can uphold your end of the bargain.

If you find his condition beyond your means that is fine for he will not harm you. You made the effort as they say. If you two agree then make sure you ask him on an easy way to communicate, so that he may give you guidance in medical needs. It would be impractical to have to ask him for assistance using this method of retreat every time you have a need.

Proceed with the release of the visitor once the meeting is finished and regardless of the outcome of the discussion. The release is recited three to seven times.

Before I forget, the incense used in this ritual consists of Frankincense, Benzoin, Sandrac, and Aloeswood.

Here is the conjuration used throughtout the ritual:

"In the name of the Divine One, Most Compassionat and Merciful, I adjure you with the reach of the Divine and His power O host of spiritual spirits. # **Jinn Sages**

There are many sages of the Jinn. These sages can educate their students in the craft of magic. The two most famous ones are Faqtash and Abba Yazeed from Mountain Qaf. There hasn't been much information provided in the tradition on how to contact them. I have located two conjurations that can put you on the right track. My recommendation is that you combine these conjurations with the Berhatiah for added boost. I have covered the Berhatiah in my book on the subject.

Let's start with Faqtash the sage. This operation must be performed during the second half of the month.

- 1) Go out under an open sky on a dark night.
- 2) Burn bdellium incense.
- 3) Recite the following conjuration one thousand times: "Abrahil yutash barhamisha barhayash. Ya shaltamurash kayhamurash 'abrashitha malakhiya. Respond, O lord Jalil Tahitam'iliyal, and order Faqtash to come and accomplish my need. Hurry, hurry! Quick, quick! Now, now!"
- 4) He will appear for you in a frightening form. But greet him and do not be scared, and request from him what you want. He will give you his condition, and if you accept it, he will be under your command and at your disposal.

Next is a conjuration for Abba Yazeed. Proceed with similar steps for retreat as mentioned in the procedure for Yonas. Recite the following conjuration twenty-one times after each salat or prayers timed with the Sun movement. The incense is Frankincense, Aloes and dried cilantro. At the end of the three nights he will enter from the door of the retreat and greet you. Return his greeting. You should have before you a large piece of green palm leaves to be used in the covenant. He will give you in return a ring or seal and a shielding to be used.

This is the conjuration: "By the name of the Divine who created, nurtured, and bloomed the trees; by He who brought forth the water from between the stones; by He who moves the constellations and stars; by He who possess the angels and subjugate them and thus they commanded, brought, and burned each rebellious spirit that doesn't believe in the day of measure. By the name of the Divine the magnificent majesty, Lord of the Elders, the power, and awe, I adjure you O Abba Yazeed the sage to answer and come and listen to my adjuration. Come from every depth for if the Divine willed He

enabled you then path made it easy for you. I adjure you by He who is the One, the Alone, the Singularity, the Eternal who hasn't been born and possess no offsprings and none is like unto Him. By Hohen Hohen Ah Ehieh Asher Ehieh Adonai Tzabbaoth El Shaddi come to me O Abba Yazeed the sage. Hurry, hurry! Quick, quick! Now, now!"

#### **Talisman for Guided Dreams**

Often people struggle to attain contact with the Jinn on a physical level. It is of course feasible, but for a beginner in the art a more simpler approach can come in hand. This is the realm of the dream. What few people believe or realize is that dreams are not a contained space within your own mind. You probably heard stories of how some people dreamt of drowning or the ocean while a water leak was going on. External stimuli can influence the content of your dreams. This external stimuli can be of spiritual nature.

It may seem incredible, but it should make some sense if you think about it. I had done some experiments where I projected myself spiritually into the dreams of consenting people in the form of animals. Then the next day I would ask them about their dreams. They expected of course to see me in my human form, so often they say: "Sorry you weren't there. I had a dream and ...." As they describe their dream, I smile because they mention the animal that I had chosen to project myself as. When I tell them that really happened very rarely do they believe me. A Jinn can do much more than the little I can do in this area.

This isn't a new concept. It will state often in Arabic manuscripts that the Jinn can give you the knowledge directly or in dreams. What I am going to share with you here is one method for attaining such guidance in your dreams. The Jinn might appear as an old man or in imposing form.

The process for using this technique is very siple. Here are the steps:

- a) Do a basic ritual purification before going to bed.
- b) Write the talisman on your right hand with your left hand
- c) Recite the Berhatiah conjuration seven times asking the Jinn associated with the symbols on your hand to come to you in your dream and give you an answer to your question.
- d) State your question very clearly
- e) Place your right palm underneath your right cheek and fall asleep on your side.
- f) While falling asleep keep focused on your request in your mind
- g) Repeat the process if needed for seven days till you get the answer to your question

Here are the symbols that goes on the palm of your hand:
